

Join our Fall Clean Up Collaboration

October 25th!

Be a part of our **First Annual Watershed-Wide Clean Up**

Richland Creek Watershed Alliance is planning a community wide event in which multiple clean-ups will occur throughout the watershed this Fall. Our inspiration behind this watershed-wide effort stems from the spirited feedback from our past clean-up experience and our hope that this annual watershed-wide event will diminish the need for such efforts overtime.

Listening to folks we have networked with and from participants of past clean ups, the idea was born- For the Alliance to sponsor a volunteer clean up day in multiple locations around the watershed. Whether it is big or small group of volunteers; along creeks, greenways, sidewalks, parking lots, alleys or storm waters drains; it will be a wonderful community building activity and at the same time *get more trash before the creeks do!*

Email us at rcwa@comcast.net or go to our [website homepage](#) to get your group signed-up or join an existing event!

Below are more details and stay tuned as we will post groups as they sign-up and we will direct you to a clean-up if you just want to join in!

Please contact us with your inquiries or to sign-up!
