

Tennessee Environmental Council Affiliate Member & Supporter Program

The Council was founded 40 years ago as a canopy organization promoting conservation in Tennessee and providing support to member & partner organizations and businesses. We are offering a new "Affiliate Member" program for non-profit organizations and a "Supporter" program for businesses. Your participation will help support Sustainable TN and will strengthen our voice on a statewide basis. In addition to your association with the strong statewide presence of the Council, the program offers these benefits:

- Purpose: To allow those organizations who support the overall goals of the Tennessee Environmental Council to become "Affiliate Members" or "Supporters" of the Council. Affiliate Membership is available to non-profit and academic organizations, subject to approval by the Council. For-profit businesses may become Supporters.
- Designated Representative: Each Affiliate Member or Supporter shall designate a contact individual who may be offered the opportunity to represent the views of their organization in an advisory committee or other meetings organized by the Council.
- Identification: Organizations who maintain affiliation with the Council will be provided use of a logo pictured above, which identifies them as an Affiliate Member or Supporter of the Council. The Council will list all Affiliate Members & Supporters on their website.
- Meetings: The Designated Representative will receive Council membership rates when attending Council meetings and functions.

We look forward to having you join us as an Affiliate Member so that we may continue and improve the work of the Council and Sustainable TN to benefit the environment for all Tennessee organizations, businesses and citizens. Affiliate Membership (or Supporter status) is included with our Sponsor packages. Sponsorship offers the best opportunity to promote your business with the Council.
